
Senior contract front-end developer with over 14 years' commercial experience.

Highly experienced working with React, Vue.js and Vanilla JavaScript alongside CSS/SASS/HTML. I bring reliability to every project, and can quickly and seamlessly slot into new teams. I'm passionate about learning new techniques and technologies and enjoy mentoring junior developers.

SKILLS

JavaScript – Vanilla, ES6/7

React – Redux, Gatsby

Vue.js – Vuex, Nuxt.js

CSS – SASS, BEM, styled-components, Tailwind CSS

HTML – Semantics, Accessibility, SEO

Templating – Handlebars / Twig

CMS – WordPress & WP-API, Kentico Cloud

Processes – Testing, code reviews, Gitflow

Version Control – Git, SVN

Code Quality – ESLint, stylelint

Automation – Webpack, Gulp, etc.

Project Management – JIRA, Trello

Design – Sketch, Figma

EXPERIENCE

Matter Of Form Helped develop a Headless CMS powered Vue.js with Nuxt.js brochure website.
Remote / Contract Tailwind CSS used throughout. GreenSock GSAP utilised for complex animations.
Nov22 – Jan22

Fundsmith LLP Worked as the primary UI developer building a scaleable and themeable responsive front-end, including a series of complex Vue.js flows integrated with a GraphQL API.
Remote / Contract
Sep20 – Mar22 Implemented and documented a front-end workflow with linting, Prettier and various other tools integrated with Vue CLI. Wrote Cypress tests.

Zone Digital Worked on a React and Redux web application as part of a large agile team for a financial services client. Used styled-components with Tailwind CSS and Hooks with Reselect. Tested with Jest, meeting a high test coverage requirement. Code reviews.
London / Contract
Jan20 – Apr20

Rufus Leonard Worked on a large React and Redux web application alongside 10+ engineers. Responsible for the Redux and application architecture. Wrote unit tests with Jest and Enzyme. Pulled in content via a Headless CMS (Episerver). Mentoring and code reviews.
London / Contract
Aug19 – Dec19

Liminal Pages Developed a Gatsby-powered static website with content sourced by WordPress, hosted on netlify. Built React and GraphQL-driven components and templates, with netlify forms and MailChimp integrated as required.
Remote / Contract
Apr19 – May19

Matter Of Form Worked on the data layer of a Vue.js with Nuxt.js, server-side rendered website, pulling from a Headless CMS (Kentico Cloud) and other APIs. Responsible for the project setup, component architecture and any complex JS. Mentoring and code reviews.
London / Contract
Dec18 – Mar19

Design Culture <i>London / Contract</i> <i>Sep18 – Oct18</i>	Led the development of the front-end for a website that included a React-powered content display and filtering application. Worked with their team to provide a grounding in React for future work.
Matter Of Form <i>London / Contract</i> <i>Mar18 – Jun18</i> <i>Jul18 – Aug18</i>	Led the front-end development of a large, modular luxury hotel website. Vue.js and Vuex used as part of a Vanilla JS and BEM component library. Code reviews and development of internal processes and tools.
Design Culture <i>London / Contract</i> <i>Nov17 – Jan18</i>	Led the front-end development on a large website build. A series of highly flexible, reusable components were built with Twig and BEM then progressively enhanced with Vanilla ES6 JS.
Zone <i>London / Contract</i> <i>Jul17 – Sep17</i>	Led the development of a Vanilla ES6 JS application. Pulled data from an API and integrated with Google Maps to build a location search interface. Gitflow was used throughout, alongside regular front-end code reviews.
Radley Yeldar <i>London / Contract</i> <i>Apr17 – Jun17</i>	Worked on a Vanilla ES6 JS and animation-heavy single page site. Developed a large static build. I used Handlebars alongside BEM to create a number of reusable components to be integrated into Umbraco.
Digirati <i>London / Contract</i> <i>Nov16 – Dec16</i>	Built a series of mobile-first progressively enhanced accessible static templates. A style guide powered by Handlebars & Assemble with Atomic Design. ARIA used throughout and followed web accessibility guidelines.
Zone <i>London / Contract</i> <i>Jun16 – Jul16</i> <i>Sep16 – Oct16</i>	Worked on several large corporate websites and a webapp adding additional responsive templates and functionality. Gained exposure to razor templates, Gitflow and ES6.
Radley Yeldar <i>London / Contract</i> <i>Jan16 – Mar16</i>	Developed a series of projects for large multinational clients. The builds included advanced Parallax and JS-heavy UI. Gained further experience with Grunt, BEM and Susy.
Remote freelancing <i>Apr14 – Jan16</i>	Worked remote for various small creative agencies and startups. This involved building medium-sized WordPress websites with bespoke themes.
Shout! Creative <i>Norwich / Perm</i> <i>May12 – Apr14</i>	Led the development of WordPress-powered content managed websites. Developed specifications with input into website structure, functionality and UX and input into project management, including timelines and workflow.
Solid State Group <i>London / Perm</i> <i>Nov08 – Feb12</i>	Websites and webapps in medium-sized teams for a wide range of clients. CMS integration with the company's Java-based CMS. Promoted from junior developer.
